1. Teams Chat Data

Support Chat for Haslet

Kevin Buczek 9/26/2025 8:53 AM

Does the support team have a summary of what happened last night at the hospital and if we are resolved? I see the conversation here ends at 7:20PM. UPS shared with me there was hospital station issues at 1:30AM.

Vishwas Kambalimath 9/26/2025 9:02 AM

what was the hospital issue?

Ekram Nafis 9/26/2025 9:03 AM

Empty totes going to hospital after tip

Harvey Dhillon 9/26/2025 9:04 AM

they are saing it took tech support an hour to get on the call. I dont understand that comment, we are always on withi

Kevin Buczek 9/26/2025 9:04 AM

> Ekram Nafis 9/26/2025 9:03 AM
> Empty totes going to hospital after tip

Can this be broken down more and troubleshooting steps over time from 7pm into early morning?

Jim Bullen 9/26/2025 9:13 AM

Just got off the phone with Andy. Same issues as the other night. It is nightshift messing things up. I know that doesn't address the response time issue in any way, but we know what's happening here and need to be more proactive

Kevin Buczek 9/26/2025 9:16 AM

Could everyone explain more or share a breakdown report? The other night was related to bagout and not hospital st was my understanding

Payton Gibson 9/26/2025 9:25 AM

Mitchel was called at 2 am to help fix a hospital issue. Evidently, they were having issues removing a tote. Also, there w tipper issues. I am hearing this second hand and don't have any more information beyond that. I have no idea what ac happened. Sounds like the problem was not documented well.

Jim Bullen 9/26/2025 9:28 AM

For last night the explanation I just got from Andy and Zane is they removed an AGV without removing the associated and basically disabled hospital station. UPS supervisor admitted to doing so and accepted the blame.

👍 2

Harvey Dhillon 9/26/2025 9:51 AM

yeah but at some point we have to have a resilient system that is not idiot proof but at least fool proof

UPS needs to have some confidence they are going to have a cost reduction on labor. It cant be too complicated that now need higher paid people to run teh site

Christopher White 9/26/2025 10:03 AM

Wesley and I will look into whether we can see call logs to find out what time the call actually came in to the hotl
the rest of the timing it looks like:

2:05amEST - the case was opened
2:35amEST - CBRE WO was entered in CBRE portal
3:05amEST - CBRE and teams link was posted in the case
4:07amEST - original issue resolved
5:05amEST - all issues resolved, site running 100%

So it's possible it took 1hr for them to get on the call with the customer from the time the hotline call came in, b
to wait until we receive the CBRE WO to begin troubleshooting, since they don't have a support contract.

Kevin Buczek 9/26/2025 10:04 AM

> Christopher White 9/26/2025 10:03 AM
> Wesley and I will look into whether we can see call logs to find out what time the call actually came in to the hotline, but for the rest of...

Christopher White Jeremy Craig Jim Bullen Can a call be setup today to discussion the escalation path and what
needed? With now 50% of the tilt tray being optisweep it needs to be escalated much faster now and if tech sup
figure it out, there needs to be a path to contact the project execution team

Christopher White 9/26/2025 10:16 AM

Sure, but Wesley should definitely be on that call. Looks like he has availability 1-2pmEST and 3-4pmEST, are you
available then?

> Unknown User 9/26/2025 9:25 AM
> Mitchel was called at 2 am to help fix a hospital issue. Evidently, they were having issues removing a tote. Also, there were tipper issues. I...

Also, was this at 2am EST or CST?

And was it our team who called him, or were UPS folks contacting him directly?

Alex Lukenbach September 26, 2025 at 5

To: All

Site was able to get all of the robots re added and are back up and running

Comment

Alex Lukenbach September 26, 2025 at 4

To: All

Was able to get the original issue resolved they are now able to add and remove totes. Site is currently working on fixing all of the issue that were made when they could add or remove totes correctly.

Ekram Nafis 9/26/2025 7:58 PM

Who is on site right now?

Andy Ackley 9/26/2025 8:03 PM

No one to my knowledge. We are done with support.

Kevin Buczek 9/26/2025 8:14 PM

Anyone that can clarify whats going on before it gets too late? Gauri is saying they are down

Andy Ackley 9/26/2025 8:16 PM

> Kevin Buczek 9/26/2025 8:14 PM
> Anyone that can clarify whats going on before it gets too late? Gauri is saying they are down

Just called Zane. He is on his way in. 10 minutes tops.

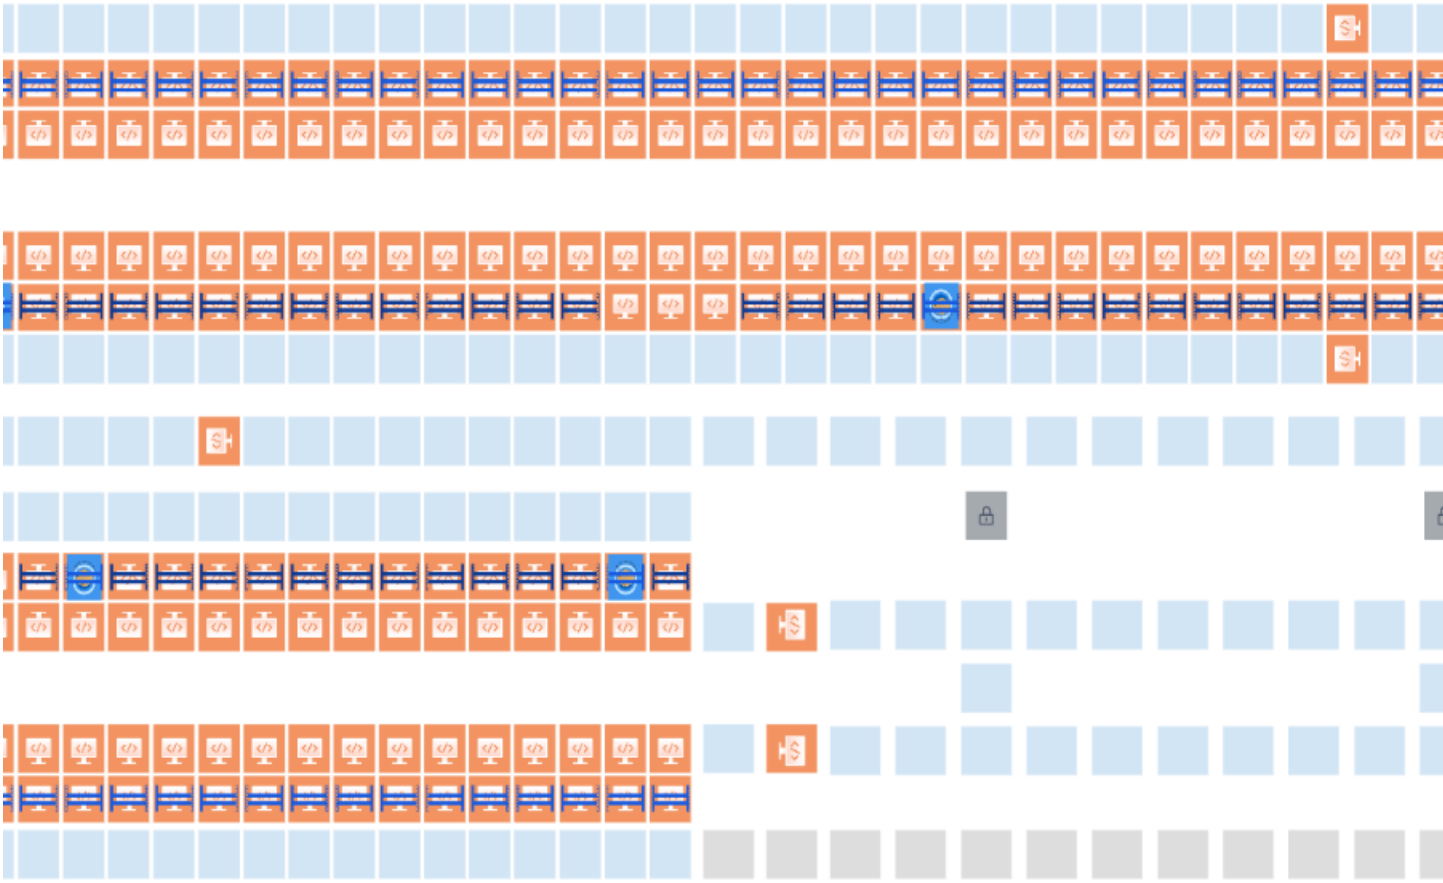

Hopefully Payton Gibson, Shane Villalpando or Mitchel Flynn can assist him to get them running

Vishwas Kambalimath 9/26/2025 8:18 PM

They couldn't start the sort at all or went down in middle of sort

Ekram Nafis 9/26/2025 8:21 PM

Kevin Buczek 9/26/2025 8:22 PM

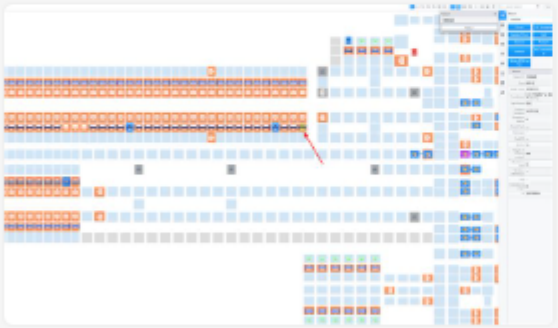

They are saying they can remove totes but they cannot add

Andy Ackley 9/26/2025 8:23 PM Edited

> Kevin Buczek 9/26/2025 8:22 PM
> They are saying they can remove totes but they cannot add

More than likely it's because they either removed an AGV and didn' remove the tote associated with it or th
totes

Ekram Nafis 9/26/2025 8:24 PM

This AGV doesn't belong here, we have two AGVs under the rack in the same zone

AGV 1555028

Andy Ackley added Zane Bubb to the chat and shared chat history from the past 305 days.

Kevin Buczek 9/26/2025 8:24 PM

Thanks Ekram

Andy Ackley 9/26/2025 8:24 PM

Zane Bubb

Added Zane to this he will be there any minute

Ekram Nafis 9/26/2025 8:26 PM

can I estop the system?

Vishwas Kambalimath 9/26/2025 8:27 PM

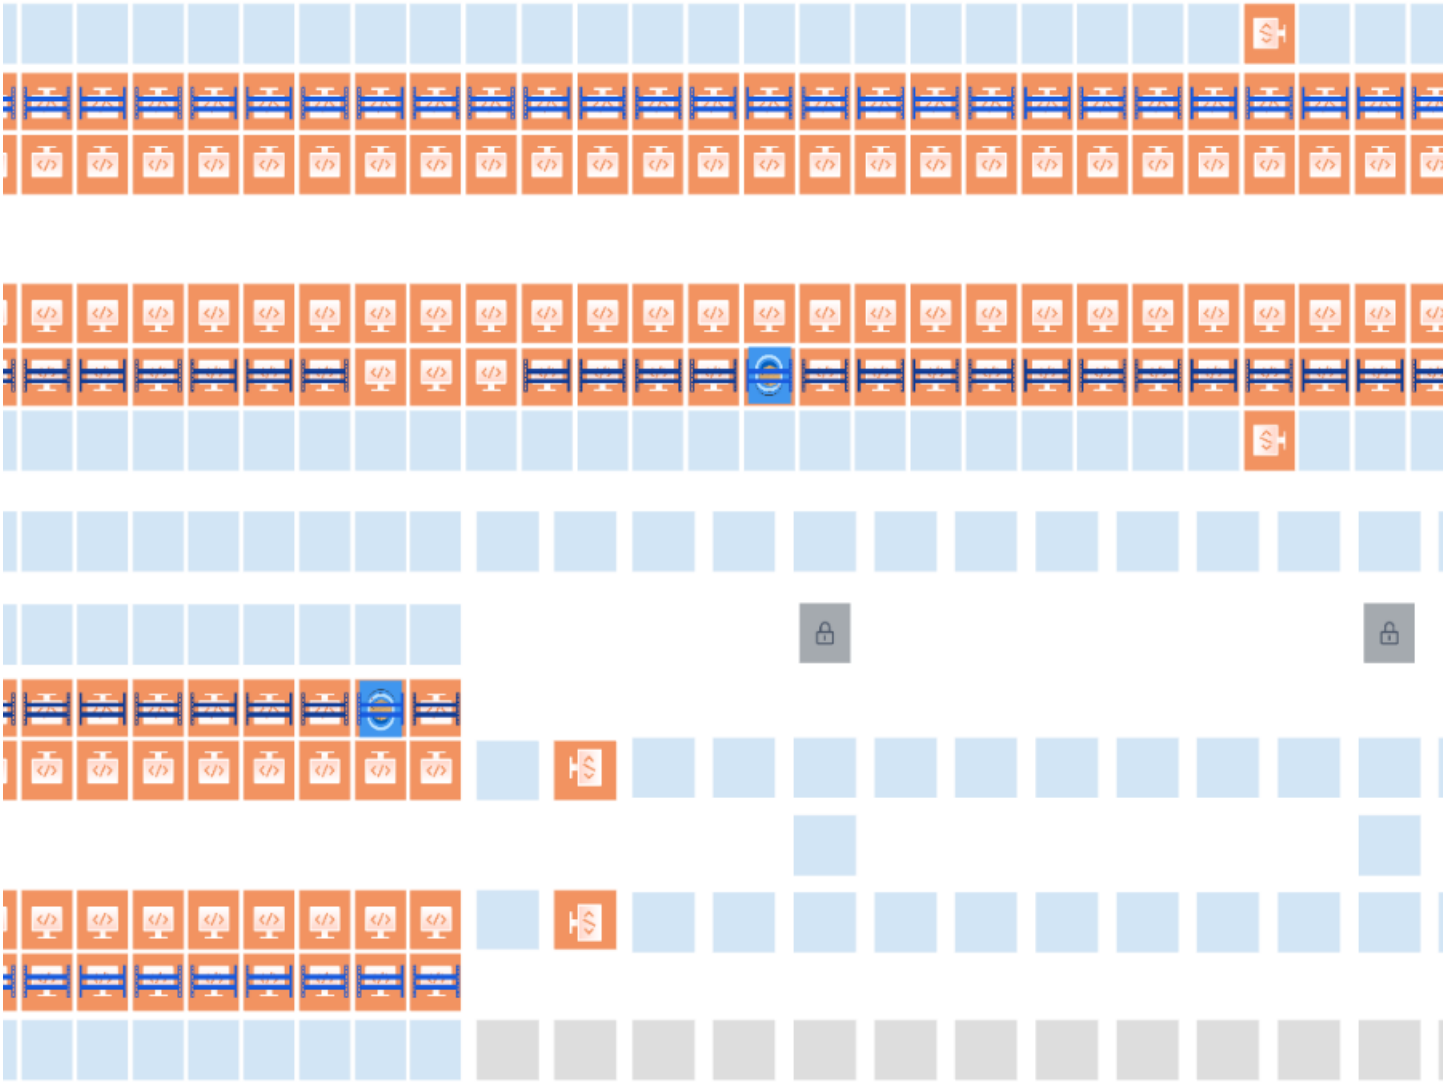

> Ekram Nafis 9/26/2025 8:24 PM
> Image This AGV doesn't belong here, we have two AGVs under the rack in the same zone

This wouldn't bring the whole system down though , right? It's not bagout .

Ekram Nafis 9/26/2025 8:31 PM

can they pull the AGV out from the hospital pickup location? AGV **1542188**

AGV 1542188

Andy Ackley 9/26/2025 8:33 PM

Zane Bubb is on his way in

Ekram Nafis 9/26/2025 8:33 PM

Did they call the support line?

Andy Ackley 9/26/2025 8:33 PM

walking though now

Ekram Nafis 9/26/2025 8:33 PM

do I have the go ahead to Estop the system until they get there?

Check the Heartbeat when you get there

Andy Ackley 9/26/2025 8:34 PM

Zane is at the hospital

> Ekram Nafis 9/26/2025 8:34 PM
> Check the Heartbeat when you get there

For the tipper

Ekram Nafis 9/26/2025 8:35 PM

if you are with him can you tell him to pick up my call

Andy Ackley 9/26/2025 8:36 PM

Lost connection

Andy Ackley 9/26/2025 8:43 PM

Please let me know when its back up so that I can text Gauri

Ekram Nafis 9/26/2025 8:48 PM

looks like totes cannot be added to at the hospital;

Kevin Buczek 9/26/2025 8:49 PM

I think its safe to say we likely don't want the hospital station in front of the main feed in ever again lol

Andy Ackley 9/26/2025 8:53 PM

> Ekram Nafis 9/26/2025 8:48 PM
> looks like totes cannot be added to at the hospital;

Were any AGV's removed without removing the associated tote?

That has been my experience in the past that causes that.

Ekram Nafis 9/26/2025 8:54 PM

we started moving

👍 2

Andy Ackley 9/26/2025 8:54 PM

AA

Thank you Ekram Nafis

Ekram Nafis 9/26/2025 8:57 PM

why dont we have anyone at the tippers?

system is running now

Lee Zenke 9/26/2025 8:59 PM

What do we think the root cause was?

Andy Ackley 9/26/2025 8:59 PM

AA

Just spoke with UPS he is getting someone at the Tippers

> Ekram Nafis 9/26/2025 8:58 PM
> system is running now

On it

Andy Ackley added Unknown User to the chat and shared chat history from the past 305 days.

Ekram Nafis 9/26/2025 9:06 PM

Brief summary:
Two possible issue:
1) Induct tote was not working at the hospital
2) AGV (012) with disconnected tote was in the system when I got in. As hospital was backed up AGV 188 and 028 picking up task and was under the rack. Not sure what caused this.
Steps:

- AGV: 1542188, 1555028 Removed
- Inducted tote with API dog to get the system moving forward
- AGV: 1555012 with disconnected tote 51, advised to remove tote 51; 51 couldn't be removed from hospital, dog to remove it.
- Few other AGVs we taken out to get the system back up running. Issue resolved 9PM ET

Note: when operators are not present at the tippers they need to put the Station on pause otherwise everything w going to hospital as we go through the recovery process.

4

Riley Buttry 9/26/2025 9:08 PM

Thank you Ekram and team for jumping in.

Andy Ackley 9/26/2025 9:08 PM

AA

Lee Zenke can you add Zane to this with his MDI email?

Lee Zenke 9/26/2025 9:09 PM

Yes

Andy Ackley 9/26/2025 9:10 PM

Unknown User added Zane Bubb to the chat and shared all chat history.

Justin McCalmont 9/26/2025 9:15 PM

> Ekram Nafis 9/26/2025 8:33 PM
> Did they call the support line?

They did not call the support line

Will using the "API dog" be a common practice to resolve issues? If so, can we or the software support team on the process?

Kevin Buczek removed Unknown User from the chat.

Riley Buttry 9/26/2025 9:42 PM

Once we confirm Ekram's summary above, can we clean it up so that it can be sent over to UPS.

Mitchel Flynn 9/26/2025 9:51 PM

> Justin McCalmont 9/26/2025 9:17 PM
> Will using the "API dog" be a common practice to resolve issues? If so, can we or the software support team have instructions on the...

We covered it in training earlier this year. Let's set up some time next week to review and make sure it gets knowledge base. Aveva hits the same endpoints as api dog. So we encouraged UPS to use Aveva in the pas removed an AGV from a zone and a rack was missing an AGV. We had them use Aveva to add a tote to a st
